Zusak: A € ä,~ "Sometimes you read a book so special you want to take it with you for months after just finishing to stay close." Only now I can't just be fully agree, but appreciate the feeling behind the words of Zusak .. Stodoing, King & Straub also present the constant reader to him, as well. And apart from her debilitating her disease, I barely felt something for her. A scene, in particular, stands out as slightly unrealistic: the leave of our protagonist. I remember practically nothing of the text, as you probably can imagine, I can't wait to do it! ... more is altering life, as the adventures of him help to form the man who must become. It is incredibly deep, and describe the trailer of my feelings recently, a good friend has agreed that the word "magic" is a great way to describe the talisman. The wolf character is very memorable (I haven't forgotten it from my first reading, in 1999.) It's dear, and so masterfully realized that you can't help the desire to run towards him with a warm embrace. (Thank you, once again, Michelle.) Yet there's more to it than mere magical elements. Most interestingly, the mind-set of the characters. Brilliant work, King and Straub! I'd never experienced this before, but at a certain point, I had a genuine Eureka! moment, which commenced with the realization that this duo were clearly influenced by C.S. Lewis's Chronicles of Narnia and, to an extent, Ray Bradbury's Fahrenheit 451. It's incredibly profound, and they describe my feelings toward The Talisman perfectly. Up next, Black House, and beyond. With that admission, I have another valid confession: I tend to be a very analytical reader, especially compared to my previous experiences with the book. In fact, it would be such a relief that I would probably laugh all day and most of the weekend.." " By the fourth and final section, aptly entitled The Talisman, I absolutely loved every word. In order to acquire that, however, he must venture east.. In the days leading to his departure, Jack meets the truly invaluable "Speedy" Parker. At the heart of the story is 12-year-old Jack Sawyer, whose sold purpose seems to be his ailing mother's salvation. P.491: "...The coats and suits are gone, the floor is gone, but it isn't crisp white snow underfoot; it's stinking black dirt which is apparently the birthing ground for these unpleasant black jumping insects; this place is by no stretch of the imagination Narnia..." 492: "... although it's uncertain if he was referring to this particular novel. Hardly a critique at all, eh? In Jack, for instance, we learn much about his personal character (as opposed to the superficial,) to the point that it almost feels like an invasion of his privacy. privacy.
