It gives you pursuit and direction. This book is a great short reading, full of great life lessons for anyone. Although examples are military life, it is not a military book. McRaven uses his time at the Naval Special Warfare in the background these life lessons, but, do not use his service as a seal as a self-promoting tool. The wisdom he transmits is an excellent reminder of how to get up from the ground. This is wisdom to ask your life around. In this small volume, the recounts author personal memories of your exemplary career as a sea seal and as the lessons of behavior seal training with the wisdom it seeks to convey. He does it in an empty way for the front of the equity. This little delicious book gives a vision about why they are these extraordinary men. In short, this is not a typical air-faired self-improvement book. It is a primer of a true hero, an extraordinarily accomplished man on how to live an extraordinary life.
