Love for freedom is the natural instinct of every living being. Comment. [CBSE 2014] Answer: It is rightly said that love for freedom is the natural instinct of every living being. Everyone loves freedom and does not want to live in confinement. Similarly, the tiger also longed for freedom. He was so fed up being caged that he even ignored the visitors. He took to and fro steps in the cage as if trying to while away the time. The tiger wanted to escape his captivity. God has made all living beings equally and thus, the animals too have the right to freedom. They should not be caged. It is their right to enjoy their natural habitat i.e. the forest and run freely in the wild. We should, thus, respect their freedom and should not put them in the zoo.Question 2. Is it right to confine wild animals into cages? Why or why not? Answer: Wild animals are meant to live in the wild. They are not meant to be caged and displayed in the zoos. We all know that the majestic species of tiger is on the verge of extinction. There used to be a time when they used to roam proudly and freely in the jungle. They are not meant to live a life in confinement. They also have the right to freedom like all other living beings. Confinement leads to depression and misery. Moreover, their offsprings lose the hunting capabilities as they are not trained to hunt in the wild. As a result, they would not be able to feed themselves. Furthermore confining wild animals disturbs the whole ecological balance. We should, thus, let the animals run free in the wild. They belong to the forest and not to the cage.
