Please leave a comment at the end of the page. Are you satisfied with this product Casio? Yes Don't be the first to evaluate this product0 votes Our support team seeks useful information about the product and answers to the most frequently asked questions. If you find an inaccuracy in our most frequently asked questions, please inform us using our contact form. My mechanical clock runs fast, what can I do? Verified This can be caused by exposure to a magnetic field © Jeez. It can be solved through © is of a process of demagnetisation carried out by a professional clock maker. This was useful (391) What do AM and PM mean? Verified AM means Ante Meridiem and indicates that the time is © before noon. PM stands for Post Meridiem and indicates that the hour is past noon. This was useful (351) A battery in my machine is oxidized, can I still use it safely? Checked Ja, the device can still be used safely. First, remove the oxidizd battery. Never use your bare hands to do it. Then clean the battery compartment with a swab dipped in vinegar or lemon juice. Allow dry-out and insert new batteries. This was useful (316) What is © a chronograph? Checked A Chronograph © literally a time writer. The term © used to describe and clocks that tell the time of day as well as measure a certain period of time, such as a chronometer. This was tiled (275) What is © GMT? Checked GMT stands for Greenwich Mean© Time (sometimes called UTC, UTC, Coordinated Universal Time). It's longitude 0 time, which passes through Greenwich near London. This was useful (193) What is © a quartz movement? Watches and watches checked with quartz movement are moved by a battery. This sends an ©críca current through © slabs of quartz crystals that will vibrate. These vibrations are transmitted to movement. Because vibrations have a fixed frequency, watches and watches with quartz movement are extremely accurate. This was useful (193) There is moisture inside the glass of my Casio watch, what should I do? Casio checked claims that if the humidity appeared after an extreme temperature change and disappears relatively quickly afterwards, there is probably nothing wrong. If the humidity does not disappear, you should have your watch repaired as soon as possible. This was useful (16) This manual was originally published by Casio. Niniejsza instrukcja opracowana zosta Å Fixe a na przykHal.-adzie modelu GA-100, jednakEtentemententemententemententemententemententemententemententemententemententemobs taišugi sURA BEST MEND133; modelami alabliniaczymi. Å Rayna 160; Before setting the time, make sure that the areja ja delle time shown on the hands is exactly synchronized with the digital clock displayed on the left or bottom screen. If the date is currently active on the screen, press the D key Indications. You will find a description of this process here. To get into definition mode, keep pressing A button for approximately three seconds in game mode until © show the three-letter slot for the currently selected time zone in the right hand side display or at the top level. You can leave the configuration mode at any time by pressing A. Use the button to go through the configuration mode between the individual positions. The currently selected option © indicated by flashing the value corresponding to it: Time Zone: If you live in Poland, use the button (to the west) or Dan (to the east) to select the patio. Summer time/winter time (STD):Using the doe button, you select coffee for winter time or where it is for summer time. If summer time is selected, STD will appear on screen. Digital relay display format: Use is select 12-hour format or twenty-hour format or turn to 24-hour format. Point of seconds:pressure is D to reset the second hand to 00. If, at the time the button is © Premise, the second hand indicates a value between 30-59, the clock time will be increased in one minute. Time: You are in enough trouble to set the right time. The time is © defined only in digital mode, the display automatically switches to the selected time when the settings mode exits. Just don't correct the time until © have set the correct time zone! Minutes:There is enough pressure to get the clock minutes right. Year: Is there enough to define the current year? Hands:There is enough (or enough) to define the current hands. Day: Is there any chance of getting a B to set the current day of the month? Sum of buttons (available only in GA-300 and GA-400):Use is Canine Selection Option is KEYO for an enabled sound when pressing buttons To make the botanicals. Time to activate the submission: by pressing, select Volume Length. 1 = Sekunda©, å = 3 seconds. ATTENTION! In the case of the GA-400 model, the configuration settings do not apply B or D ©, and through the button on the right side of the watch in the appropriate direction. The exception is © option of redefining the second, which works as in the above script. After setting the SET A button to return to its main mode. Follow.
