

All apk installer

Continue

APK Installer and Launcher is a free Windows application that takes your Android executable files and makes them accessible on your desktop's file explorer. They will have icons that look like you can run them, but you can only launch them on an emulator or on your phone. You'll need to install the app first before you can run it. Similar tools include Pure APK Install and KOPLAYER APK Install.It doesn't act as an emulator to run the apps on Windows. You'll need to install an emulator program like BlueStacks for the games to work properly. The APK Installer and Launcher only installs the applications on your phone or emulator so you can use them.Make your APK icons look goodWhen you download Android APK files to your PC, they look terrible and it's challenging to find games or apps while reading all the names. Even if you have BlueStacks to install it on, the file explorer doesn't make it any easier to look at. APK Installer and Launcher app provides the solution by showcasing proper icons that make them look like executable EXE files.USB debuggingOf course, you can't simply run the APK files on your phone from your PC. The app includes a debugging tool so that you can use a cable to install and launch it on your mobile device. You also have the option of connecting via a wireless network, but it may not be as reliable.SDK RequirementsThe one significant downfall is that APK Installer and Launcher won't work on its own. You need an Android SDK to make it work. Once you download one, you'll need to show it where you saved your APK files. Only then can you install this app and use it to show your icons.A new way to install appsThe APK Installer and Launcher app delivers a viable solution if you want to make your Android apps and games look amazing on your Windows device. You can organize them properly, while it also lets you find the programs much quicker.As long as you have an Android SDK on your PC, you can install the apps from your desktop onto your phone or emulator.Title:APK Installer and Launcher 1.0 for WindowsRequirements:Windows 8.1,Windows 8,Windows 7,Windows 10Language:EnglishLicense:FreeDate added:Monday, September 20th 2021Author:dihav 8983f0231820c2bd255764f16f25db215bab9f94Filename:apklauncher.zipWe don't have any change log information yet for version 1.0 of APK Installer and Launcher. Sometimes publishers take a little while to make this information available, so please check back in a few days to see if it has been updated.Can you help?If you have any changelog info you can share with us, we'd love to hear from you! An easy way to manage your Android device The official Huawei file manager Everything you need to work with compressed files A floating button that's filled with possibilities Solid Explorer File Manager An efficient and simple file explorer A recycling bin for Android A comprehensive file explorer for Android An indispensable app for keeping your apps updated The best search engine on the internet All the apps you want on your Android device The best place to buy movies, books and apps for Android Check the time with the best widget for Samsung The official Samsung app for making calls SHAREit - Connect & Transfer Send your files quickly and easily Manage files on your Samsung device Apk Installer is an APK application management program. APK is the file format used by Android mobile devices. With this software you can install, uninstall, update and manage the applications on your phone or tablet from your computer or from the SD card.SideloadngAndroid allows you to install applications from Google Play but also by means of "Sideloadng", in other words, without making use of the store. Apk Installer is the perfect tool to install and manage those APK files that you have downloaded from other web pages.FeaturesInstall and uninstall applications.Create backups of the applications installed.Take screenshots.Security scanner on the cloud.Download Apk Installer for Windows totally free of charge and take full control of the APK applications on your mobile phone or tablet. Google Installer App APK Download on your Android device and enjoy all the Google Apps in your Chinese Smartphone.Google Installer is a G-App package to run Google Apps on Chinese Devices as some countries have very strict policies for using the apps developed in other territories like that in China. Chinese internet industry does not allow their people to use Google Apps like YouTube, Gmail, Maps, Docs, Snapseed etc. There is also restricted use of Google search. Facebook and other social sites are also blocked in this country. Due to the complete block of all Google Apps, it is very difficult for running some supportive apps which rely on Google Apps.The OS developed for China are barred from Google Apps and therefore it is quite difficult to download the Gapps. The Chinese forked Android OS for various devices like Xiaomi MIUI, Oppo ColorOS, Meizu, Alcatel, Gionee, OnePlus Hydrogen OS, LeEco, Huawei, ZTE etc have their own App Store.It is important to note that Google Play is not banned in China. Few phone manufacturers in China do pre-install it. However, it is Google who bans all paid apps and apps with in-app purchases for Chinese users.Today I have come up with one of the best solutions to use all Google apps on your Smartphone without much difficulty. All you need is download the Google Installer Apk on your Mobile and enjoy all Gapps.What is Google Installer?Google Installer is a software App package which lets you install all the Google Apps on your Android phone If your device lacks GMS Suite which is possible in case if you have Chinese Local Smartphone which does not run on G-Apps Package. With G-Installer you can run all the G-Apps which otherwise would be impossible due to lack of there app suite.Key Features of Google InstallerAll Google Apps.Google Play Store and Play Services Availability.Support Android 4.0+Google Seivces Framework.Google data sync.Download and Install the Google Installer Apk (Gapps)Here is the complete guide on installing the Google installer on Chinese Mobile Version.Steps to Install Google Installer ApkDownload Google Installer Apk 2.0Download the Google Installer APK file on your Android mobile.Go to Settings → About Phone → Tap 7 times on Build Number. This will activate "Developer Options."In Developer Options → Allow Mock Location, enable it.On your Android phone, go to Settings → Security →Unknown Sources (Enable it).Now locate the downloaded apk file in the storage and install it.Open the app. You will see a blue circle tap on it.Click on the yellow circle.Google Installer ApkNow install the Google Seivces Framework on your smartphone.Tap the Red button on the screen.Accept the Terms and allow all the permissions.Holla! You have just made your Android phone ready for Google Apps.I recommended you to first install Google Play Services and other related Apps and then go with Maps and Play Store.Google Installer For Meizu DevicesDownloadThe steps are the same for all the China ROM devices just. You can also use ES Explorer to locate the Installer APK and further download the Google Play Store and other GSM Apps.Steps to Install Google Installer on Xioami MIUI 8 & MIUI 9Method 1. Using Installer APK (China ROM)Download Google Installer for MIUI 9 DownloadDownload Google Installer 3.0 for Xiaomi MIUI1. Enable the Uknown Sources on your phone. Go to Settings → Additional Settings → Privacy and Enable Unknown Sources.2. Locate the Google Install apk and tap on it to install.3. Once the file is installed, a new icon with the Chinese language is available in your app drawer.4. Now open that app on your phone to start the installing process. A new page will open on your screen with Blue Circle. Tap on it and install the Google Files on your phone.This will take some time near about 5 minutes.5. Once all the files are installed on your phone. You will see the Google Play store app on your phone. Now you can install your favourite app like Gmail, Youtube, Chrome from the Google Play Store.Method 2. Using Xiaomi App Store (Internal ROM)Step 1. Go to Tools → Downloads → Tap three dots in the upper right corner → Settings → Download Size Limit → Select Unlimited.Step 2. Launch the App Store. Search "Google" as a keyword. Find the Google Installer icon then click on Install.Step 3. Holla! Google Installer has been installed on your device.Install the Google Play Store and G-AppsAs Google Services Framework is installed you can now install and run Google Play Store and enjoy all the Google Apps on the device. You can also install Google Play Services on the phone which is required for running of Google Apps and other Apps Service like Snapchat, Tinder etc.Install Apps from Play Store API without Google AccountGoogle Play API Client Alternatives to Download Apps from Google Servers without G-Account1. Aurora StoreAurora Store is an unofficial FOSS client to Google's Play Store. It means you can download apps from the Google Play Store without any Google Account. Aurora Store itself is an independent app store but lets you download apps from Google Store Servers. It works in a similar way as the YouTube Vanced works for YouTube. The Aurora Store uses the Play Store API and delivers the apps from Play Store Servers.The Aurora Store can run without any Google Account. You can download and update apps directly from Google Servers ensuring complete safety of the app from any inject of virus or malware. It is a lightweight application and comes with a very elegant, clean and fluid user interface.Download Aurora Store2. Yalp StoreThere is a Freeware App store which installs Apps from Google Play Store without any requirement of G-Apps Suite or Google Account. This App store is called Yalp Store.Most custom ROM developers make their ROMs available without the Google Mobile Services Suite due to its not so good effect on a device's battery and performance. Yalp Store lets you download APK's and install updates directly from the Google Play Store without having to install Google Apps or the GMS suite. You can watch download Apps from Play Store without Google Account.Go to Yalp Store Download PageYou can manually download Google Apps one by one on your device to avoid unnecessary G-Apps to take your device space. If you wish you can log in to your Google Account or by default use a fake Yalp Account to access the Play Store.Note & Conclusion: The post above would have helped you to install the Gapps on your Android if you are running on China ROM, or a Custom Built ROM.I hope the post was helpful. Do comment below for any assistance or support if needed.If you've any thoughts on Download Google Installer Apk for Android devices, then feel free to drop in below comment box.
