How to turn off bluetooth on nordictrack treadmill

Costco sells this Nordictrack Treadmill for \$799.99. It is the Elite 900 Treadmill that is “similar” to that of a Peloton (more on that later). Scroll down for photos & my true opinion. The home workout machines are very popular right now. Fitness & health have always been a big industry, but with the pandemic (COVID-19) still around, more & more people are looking for the home gyms. That is where the Nordictrack comes in. It is an affordable treadmill with the touchscreen & online classes to help coach you. Nordictrack is a name brand that has been around for ages. Treadmills have a price range of \$300 – \$10,000+ (Woodways, google it) so this is a VERY affordable one. Continuous Horsepower (“CHP”) is a term used in the treadmill industry for consumer comparison purposes. The CHP rating is measured in laboratory testing using a dynamometer, which measures the mechanical power of the motor. The CHP rating does not denote the operational horsepower of the treadmill in ordinary household use. In ordinary household use, the motor does not operate at the horsepower shown. Average iFit Workout Rating 4.8 (6.8K Customer Reviews) Average iFit workout rating is provided by each user at the end of a workout on their equipment.
