Katkova Journal: Itinerary / Volume 43 / Issue 1 / April 2019 Published online by Cambridge University Press: 07 May 2019, pp. 32-46 Print: April 2019 This article deals with Malaysian letters and documents from the archives of the Dutch East India Company (Vereenigde Oostindische Compagnie--VOC), dating back to the 17th and 18th centuries. The collection of Malay "gold" letters, which belonged to the general governor of VOC in Java (1704-1709) Joan van Hoorn, made a long journey on the Sandenburg ship from Batavia to Cape Town and Amsterdam in 1710. Its historical and cultural value was first estimated by the exceptional Russian and antiquarian scholar N. P. Likhachev, who bought it for the Paleographic Museum in Petrograd (Saint Petersburg) in 1910. The pages of the fifty-seven diplomatic letters cover one of the most controversial periods of VOC history on the Archipelago, from 1683 to 1710, the establishment of its relations with the nobility and the local states. The collection represents the original letters of the sultans of Palembang, Gowa, Buton, Bone, Tallo, Banten, and Cirebon, and prominent historical figures of the Malaysian states, as well as the famous Indian merchant of Surat, Abdul Ghafur. They are written in Malaysian (in Arabic chart: Jawi and Pegon), Arabic, Javanese (in two scripts: Pegon and Carakan), Dutch, Spanish, Persian and Chinese. Their investigation will contribute to the academic scholarship on the famous documents, reconstructing the history of the Dutch East India Company (VOC) on the Malaysian Archipelago, and the peculiarities of the Malaysian letter that writes in different languages, scriptures and regions.
