This It must be performed after the grid was assembled and before each use. Do not use this grid before having read and understood all the warnings and instructions contained in this manual.Ã ¢ \$ Make sure the grid is properly assembled.Ã ¢ â ¢ Check the feed gas pipe for burns, rubbing, folds, and correct routing before each use. If it is obvious there is excessive abrasion or wear, or the tube is cut, it must be replaced before the grid in use. Replace with tube and controller model N 155-6630-0, which can be obtained from from Customer service at 800-527-0717. Ã, â ¢ Check the loss all the gas connections, the tube and the propane tank. See the section on à ¢ â,¬ Å ¢ a,¬ Å "test test". - Make sure all the power cables are correctly rooted. Keep any power supply cables and the fuel surfaces. Place the grid on a non-fuel level surface in a well ventilated position, a safety distance 10 ft. (3.1 m) from Combustible materials, buildings and protrusions. Do not correctly place the empty fat cup under the fat drain hole at the bottom of the grid to capture grease during use.ã, Â »Do not block the ventilation areas on the sides, back o cart grill compartment.pre-start list: lighting instructions: read, understand and follow all warnings and instructions exactly.1. Open the grid lid before attempting to turn on a burner so that the fumes do not accumulate inside the grid. An explosion could occur if the grid cover is down.2. Check that all burner control knobs and the cylinder valve are facing the position à ¢ â,¬ Å "offà ¢ â,¬. Turn on the fuel supply by slowly rotating the cylinder valve knob counterclockwise for FULL Open.4. Do not bear with the head, the body or arms over the grid when the Lighting. Page 21 we want you to assemble and use the grid the safest possible. The purpose of this security warning symbol is to attract your attention to possible dangers while assembled and uses your grid. When you see the security warning symbol is to attract your attention to the information below! Read all safety warnings and instructions with attention assembly and management of your grill.dangerimportant SafetyWarningsif You present gas: 1. Turn off the gas for the appliance. 2. Extense any open Až â, ¬, ame. 3. Open Lid. 4. If the smell continues, keep away from the appliance and call your gas supplier immediately or your Department of â, ¬ æ 'RE. 1. Do not store or use gasoline or other Až â, ¬, liquids or dismissible vapors in the vicinity of this or any other appliance. 2. An un-connected LP cylinder should not be stored near this or any other appliance. a) Do not store a lower reserve LP cylinder over 80% complete. c) if information in (a) and (b) are not exactly followed, an æ 'that causing serious death or injury can occur .warningdangperpage 33warnningà ¢ â,¬ â ¢ loss test all connections before Þ æ 'RST use, even if the grid was purchased completely assembled and after each tank of â,¬ æ' ll. Check the rubber seal of the propane reservoir for damages. Always check the grid tank and propane before each use as indicated in à ¢ â,¬ à ¢ â,¬ "for losses" and à ¢ â,¬ Å ¢ â,¬ "Start control list" Sections of this manual. Never use natural gas in a unit designed for liquid propane gas. Never use coal coal, lava rocks or wooden briquettes in a gas grill. Flavoring chips must be contained in a metal smoke box to hold ash and prevent Þ æ 'res. â,¬ â ¢ guarantee Þ â,¬, Ames come out of all the frames of the burner to every use. Spiders and insects love to build nests in the burner tubes. Blocked burner tubes can prevent gas "â,¬ for burners It could cause a burner tube "â,¬ æ 'king or" â,¬ â ¢ Never use or store petrol, lighter Þ â,¬, UID, paint thinner or other Þ â,¬, amobable vapors and liquids or combustible materials in or near your grid. a, a, a & Do not block the ventilation areas on the sides, back or on the trolley of the grid compartment. Do not cover cooking grates or other components with aluminum foil, since this block can occur to the ventilation and damage to the grid compartment. Do not block the ventilation areas on the sides, back or on the trolley of the grid compartment. the side tables. Do not lean on the side tables. Do not leave the grid with side tables. - Keep children and pets away from the hot grid. Do not allow the gas tube to contact hot surfaces. Redirect the gas tube if necessary. A ¢ â ¢ Do not allow grease or hot dripping to fall on the tube and assembly regulator. In this case, close the gas at once. Empty grease tray / cup and clean the pipe and mounting regulator and check any damage before use. From water or heated surfaces .Ã â ¢ Do not use water on a grease I kings. The closure of the cover to turn off a grease The kings is not possible. Use Type BC Dry Chemical The Kings or fire extinguishers to stifle with dirt, sand or soda.Ã ¢ cooking â ¢ Do not use while under the influence of drugs or in the alcohol.Ã ¢ â ¢ external only. Do not operate in closed environments or in a closed room, such as a garage, shed or breezeway.Ã ¢ â ¢ Location your outdoor grid on a flat nonfuel surface in a well-ventilated place, at a safety distance of 10 ft. (3.1 m) from material fuels, buildings and overhangs. ¢ â ¢ Apartment inhabitants: check with the management and follow the requirements and ri i codes to use a LP gas grill in your apartment complex. use only outside on the ground (not on a balcony, terrace, garage, etc.) with a 15 feet (4.6 m) minimum distance on all sides from any wall, structure or material. Fuel â ¢ Maintain a distance Minimum of 36 inches (91 cm) between each side of the grill, platform railings, walls or other fuel material. Not adhering to these games can prevent proper ventilation and can increase the risk of a re and / or damage to the property, which could also cause personal injury. Do not use the Construction head grille. A ¢ Unprotected fuel â ¢ Do not use or install this grid in or on a pleasure vehicle and / or boat. A ¢ Â ¢ Do not use the cooking surfaces, guarantee the absence of loose bristles remain on the kitchen surfaces before the grilled cooking as melted bristles possibly inherent in food. ¢ Â ¢ Do not store Articles in the cart that can capture A® king or damage your grid (like the pool Supplies / chemicals, tablecloths, chips) Warnings .General: 42for page covers, accessories and other products, visit us online at: General

Coverdanger: indicates a situation of imminent danger that, if not avoided, can cause death or serious injury. Warning: pay attention ALL MESSAGES. CAUTION: indicates a potentially dangerous situation that, if not avoided, can cause mild or moderate injury. California Proposition 65 Warningthis Product contains chemicals, including brass lead of certain components, which are known to the state of California for Cause Cancer and defects at birth or other reproductive damage. Wash your hands after handling. If used, this product emits fuel combustion chemicals that are known to the state of California to cause cancer and defects to birth or other reproductive damage. Follow all the instructions in this manual and use only in the well-ventilated external area. Table of the contents: Page 54LP Gas cylinder (tank) Specifications and installation: Ã ¢ â,¬ â ¢ Grill is warm when it is in use. To avoid burns: Ã ¢ â,¬ â ¢ Do not attempt to move the grid. $\tilde{A} \Leftrightarrow \hat{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Block the wheels so that the unit does not move accidentally. $\tilde{A} \Leftrightarrow \hat{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{a}, \neg \hat{a} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{A} \Leftrightarrow \tilde{b}$ Do not wear loose clothing or let the hair come into contact with the grid. $\tilde{b} \Leftrightarrow \tilde{b} \Leftrightarrow \tilde{$ from the intended purpose. Use caution and common sense during gas grid operation. Failure to adhere to safety warnings and guidelines in this manual for future reference. Darenningà ¢ â,¬ â ¢ Connect only this grid to a type 1 cylinder valve. The type 1 valve can be identity æ 'æ' æ 'with large external wires on the valve socket. Do not connect to a cylinder greater than 20 pounds. (9.1 kg) Capacity .Ã, â, ¬ â ¢ Do not connect to a cylinder greater than 20 pounds. (9.1 kg) Capacity .A cylin seal can cause a loss of gas, possibly resulting in explosion, Þ æ 'æ' king or serious physical damage. - Turn off the cylinder to the grill. - Do not expose the LP gas cylinders to excessive heat sources or ignition. Do not store a reserve LP gas cylinder to be "â,¬æ 'ac Suitable only quali® â,¬æ 'and lp gas dealers to Þ æ'l or repair your cylinder to be "â,¬æ 'ac Suitable only quali® â,¬æ 'and lp gas dealers to Þ æ'l or repair your cylinder of gas lp.Ã, â,¬â ¢ Suitable only quali® â,¬æ 'and lp gas dealers to Þ æ'l or repair your cylinder of gas lp.Ã, â,¬â ¢ Suitable only quali® â,¬æ 'ac Suitable only ac cylinder and accompany this product. - Do not store a reserve lp gas cylinder (full or empty) below or near your grid. This could cause overpressure it is expelled through the steam vent valve resulting in King A®, explosions or serious personal injury, including Death.Ã ¢ Â ¢ Propane gas is heavier than air and are collected in low areas. Adequate ventilation is extremely important. Keep the opening of the free and transparent LP gas cylinder ventilation from obstruction and debris. Do not use the propane tank with a damaged rubber gasket. A damaged rubber seal can cause a gas loss, possibly resulting in explosion, king Å®, serious injury or death. Inspect the rubber seal for cracks, wear or deterioration before use. Å ¢ Always keep the cylinder (tank) on the grid: 1. That the cylinder valve is closed by rotating the knob clockwise.2. Place the cylinder in the tank holder at the bottom of the cabinet.3. Orient the cylinder so that the valve opening faces the left coffee table, so that the tube is not twisted or damaged.4. Fully tighten the socket tank holder underlying tank retention to ensure Tank.Ã ¢ ¢ Check the propane reservoir valve seal, wear or deterioration before use. A damaged rubber seal can cause a gas leak, possibly resulting in explosion, Až â, ¬, king or serious physical damage. The inspection should be performed each time the Tank is connected to the grid, it has been filled rei, exchanged or has not been used for more than 60 days. A ¢ â ¢ Do not use a propane tank with a damaged rubber gasket. Replace the tank or have the rubber gasket replaced with a Quali NDR propane A® Filling station. Pgas cylinder (tank) Rubber control symbol: Goodrubber Sealdamaged Rubber Sealdamaged R as a natural gas line. For Dual Fuel grids that can be converted to natural gas, a Brinkmann conversion kit must be purchased and installed for use with natural gas. Please contact Customer Service at Brinkmann 800-527-0717 to see if your grid can be converted. ¢ â ¢ Do not use any other pressure regulator / montage hose other than the one supplied with the grill. Replacement Pressure Regulator / Pipe Assembly must be part N 155-6630-0, which can be obtained by contacting customer service at 800-527-0717. ¢ å ¢ Do not attempt to adjust or repair a regulator. The regulator is designed to work at a maximum output pressure of 11 inches of water column (2.74 kPa). Ã, å ¢ Make sure the cylinder valve is closed before connecting the grid LP gas cylinder. Rotate the valve knob clockwise to correctly close the valve. Read and follow all the warnings contained in this manual regarding the safe use of LP gas cylinders and the tube and regulator before connecting grid cylinders. Read and follow all warnings on the LP Cylinder. Warningtank Holdertank Retention ScrewPage 75A â ¢ Allow only Quali® and the LP gas resellers authorized to LL correctly I or repair Cylinder. A ¢ do not allow the A® cylinder filled over 80% of the ability. Over-î LLED tanks can create a dangerous condition. Above-Lled tanks can accumulation of pressure and provoke the safety valve for propane gas vapors expel. The steam is fuel and if it comes into contact with a source of sparks or î AME an explosion causing serious burns, injury or death could occur. ¢ â \$\phi\$ Always use a protective cylinder cap when the grid is not connected to the cylinder must have a type 1 valve and an over-\$\tilde{A}\$ (OPD) filling prevention device .\$\tilde{A}\$ a \$\phi\$ Check that the tank of propane rubber gasket valve cracks, wear or deterioration before use. A damaged rubber seal can cause a leak of gas, possibly resulting in explosion, I have RI or serious body harm.filling the LP Gas cylinder (tank): WarningLP Gas cylinder (tank) Features: LP cy (45.7 cm) in height and have a 20 pound (9.1 kg) incorporating capacity A type 1 cylinder valve and an over-î (OPD) filling protection device.
