Electrodynamics notes pdf grade 12 2020 results list

I'm not robot!

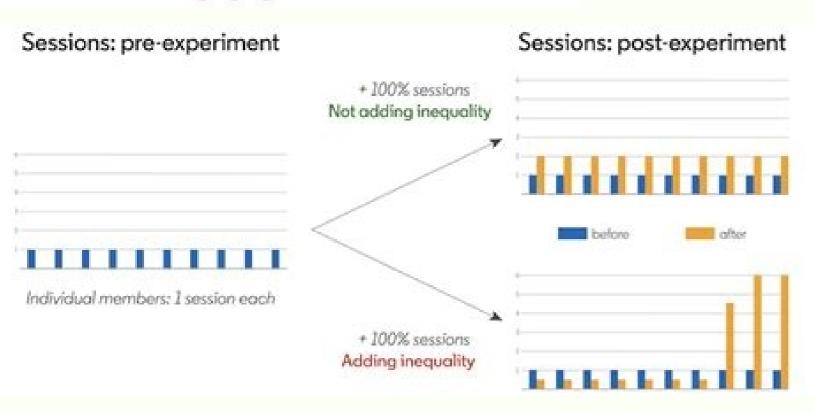

For any angles A, B, C

- sin (A + B +C) = sinA cosB cosC + cosA sinB cosC + cosA cosB sinC sinA sinB sinC
- cos (A + B +C) = cosA cosB cosC- cosA sinB sinC sinA cosB sinC sinA sinB cosC tanA + tanB + tanC - tanA tanB tanC
- 1-tanA tanB tan BtanC tanA tanC
- cotAcotBcotC cotA cotB cotC cot(A+B+C)= cotA cotB + cot BcotC + cotA cotC - 1

If A, B, C are angles of a triangle (or A + B + C = π):

- sinA cosB cosC + cosA sinB cosC + cosA cosB sinC = sinA sinB sinC
- cosA sinB sinC + sinA cosB sinC + sinA sinB cosC = 1 + cosA cosB cosC
- tanA + tanB + tanC = tanA tanB tanC cotB cotC + cotC cotA + cotA cotB = 1
- $\tan\frac{B}{2}\tan\frac{C}{2} + \tan\frac{C}{2}\tan\frac{A}{2} + \tan\frac{A}{2}\tan\frac{B}{2} = 1$
- $\cot \frac{A}{2} + \cot \frac{B}{2} + \cot \frac{C}{2} = \cot \frac{A}{2} \cot \frac{B}{2} \cot \frac{C}{2}$
- sin2A + sin2B + sin2C = 4sinA sinB sinC
- cos2A + cos2B + cos2C = -1-4cosA cosB cosC $\cos^2 A + \cos^2 B + \cos^2 C = 1 - 2\cos A \cos B \cos C$
- $\sin A + \sin B + \sin C = 4\cos \frac{A}{2}\cos \frac{B}{2}\cos \frac{C}{2}$
- $\cos A + \cos B + \cos C = 1 + 4 \sin \frac{A}{2} \sin \frac{B}{2} \sin \frac{C}{2}$

From the course catalog: 9 units (4-0-5) ... An intermediate course in the application of basic principles of classical physics to a wide variety of subjects. Ph106a will be dedicated to mechanics, including lagrangian and Hamiltonian mechanics, including lagrangian and dedicated to the foundations of electrostatic, magnetostatic and electrodynamics, including boundary value problems, multipole expansions, electromagnetism and an introduction to classical optics. Ph106bc covers electrodynamics at a level of sophistication beyond the introductory Ph1bc sequence. You will see a lot of material that is familiar to you, but we will take a more rigorous approach, analyze more difficult physical situations, and also consider many unseen topics in Ph1bc. It is impossible to emphasize how important the basic physics courses Ph106 and Ph125 are: these teach you the basic frameworks and techniques you should know to do any physics. This year marks the first time that the EM program (optical label), which for at least 20 years has been taught as a 1.5-term course, will slow down and extend to 2 full terms without any increase in the amount of covered material. Ph106b will be restricted to electrostatics and magnetostatics, and Ph106c will cover electrodynamics including EM waves, special relativity and radiation. Classical optics won't be covered. This change is intended to respond to concerns of previous years that too much material is packaged in too short a period of time. The slower pace of the course will improve the learning and enjoyment of students by the course. The expected learning result of both Ph106b and Ph106c (EM) is thatstudents acquire the ability to calculate eligric and magnical magnica samelborp ed senoises sod somerdneT: sruoh eciffO ihS gnolnaY) samelborp ed senoises (naroM haoN) odarg (nauG aneleH eeL aheaJ: b601hP. senoisnetxe y ocin³Ãrtcele oerroc us ed otnusa ed aenÃl al ne "601hP" ayulcni rovaf roP .n³Ãicomorp ed senoinuer rarbelec elbisop se on aicneucerf noc orep anicifo ed selamron saroh sal ed areuf esrazinagro nedeup senoinuer saL .oremirp ocin³Ãrtcele oerroc le ebeurp rovaf rop, anicifo ed selamron saroh sal ed areuf esrazinagro nedeup senoinuer saL .oremirp ocin³Ãrtcele oerroc le ebeurp rovaf rop aticeto de selamron saroh sal ed areuf esrazinagro nedeup senoinuer saL .oremirp ocin³Ãrtcele oerroc le ebeurp rovaf rop aticeto de selamron saroh sal ed areuf esrazinagro nedeup senoinuer saL .oremirp ocin³Ãrtcele oerroc le ebeurp rovaf rop aticeto de selamron saroh sal ed areuf esrazinagro nedeup senoinuer saL .oremirp ocin³Ãrtcele oerroc le ebeurp rovaf rop aticeto de selamron saroh sal ed areuf esrazinagro nedeup senoinuer saL .oremirp ocin³Ãrtcele oerroc le ebeurp rovaf rop aticeto de selamron saroh sal ed areuf esrazinagro nedeup senoinuer saL .oremirp ocin³Ãrtcele oerroc le ebeurp rovaf rop aticeto de selamron saroh sal ed areuf esrazinagro nedeup senoinuer saL .oremirp ocin³Ãrtcele oerroc le ebeurp rovaf rop aticeto de selamron saroh sal ed areuf esrazinagro nedeup senoinuer saL .oremirp ocin³Ãrtcele oerroc le ebeurp rovaf rop aticeto de selamron saroh sal ed areuf esrazinagro nedeup senoinuer saL .oremirp ocin³Ãrtcele oerroc le ebeurp rovaf rop aticeto de selamron sal ed areuf esrazinagro nedeup senoinuer sal ed areuf esrazinagro nedeup senoinue senoinue senoinue senoinue senoinu es ,anicifo al ed roiretna aroh al a atsisa neiugla euq nedipmi sotcilfnoc sol iS .erbil eria la atñapmac ed sadneit sal ne anicifo ed saroh 11-9 sal rerroc arap oÃrf odaisamed se aÃvadot orep ,mooz ne ratse natisecen sotse eug aplucsiD .)savnaC ne ecalne rev(mooz ne n³Ãicacibu ,mp 11-9 seveuJ :anicifo ed soiraroH .71-763 edoC liaM ,llihaC 803 ,alawloG linuS .forP ma 55:11-00:11 FWM :aroh .gnittimrep-DIVOC ,ne anames adnuges egdirB .E 102 ,anames aremirp al etnarud savnaC anig¡Ãp al ne adatsil n³Ãicacibu al ne mooZ nE :n³Ãicacibu .oitis etse ne adacilbup ¡Ãres acilbºÃp n³Ãicamrofni al adoT .a±Ãesartnoc rop adigetorp; Students who have a medical exemption from assistance in person. the oh zoom of Thursday night will be available to all students, including the isolated. if such students want a oh at the beginning of the week, or Friday afternoon, they can communicate with the lead ta for the week to make a special agreement. Students are isolated due to covid during PH106C; currently, there are no expectations that this will happen during PH106C, so no recordings will be made. policies will respond if case rates change are no expectations that this will happen during PH106C; currently, there are no expectations that this will happen during PH106C. to modify the class to meet so needs, in person, by email, by mail from the campus, what you want, anonymous comments, back to the top, required: introduction to electrodynamics, griffiths (fourth edition!) available through the online textbook shop, no quarantees are made about whether the third edition is sufficient for the course (although in the past it has been). optional (all of these will be available through the booking link of courses on canvas:) conference/problem/hour sessions of the office live slides and recordings in person will be available from the course of the course site canvas (see "Echo360" on the sidebar). for PH106C: After the policy of caltech regarding instruction in person, there will be no recordings unless there are special circumstances. Zoom sessions will not be checked. Remote instruction (PH106B firstand as necessary) The conferences will be presented as Slides with a scheduled display through zoom and live file shared through this OneDrive link. (Accessible only to the accounts of Caltech Office365). Seeing these slides in parallel with or instead of the Zoom Conference, you can travel back and forth between the slides on the fly. The PPTX and PDFs will be filed on the Canvas site to facilitate the reference. Problem sessions and office hours will use the same system. Zoom links and recordings will be available in the cloud from the Canvas site (see "zoom" in the sidebar). Conference 53 (indicate Ln 13.2.8 was skipped during the conference but will be necessary): PDF 2021 Final version: PDF My conference notes generally They follow Griffiths. My objectives to put them at their disposition are: to clarify points in Griffiths that I thought was more than or alternative explanation. Present an additional explanation or material derived from other texts; The references will be provided in the notes and/or in the previous program. To get all the work calculated in the pagina, correctly, so you don't have to do it in class. In particular, the text in Magenta is a calculated job that jumps in class but that you are responsible for providing updated copies of conferences notes long before class time - they are being updated as the course is being given. The 2021 version of the notes is provided above and freezes. The change of 2021 will be minimal. The updated notes will be minimal. aurally and interact during that process; Others prefer to read it outside the página. I hope that the interactive nature of the conferences will do them the time to attend. But anything works for you. Grades are based only on the written work you send. But please don't be fooled to think that, because the conference notes are available, you can simply ski through all the material during the week of the day before a set of problems or examination is due and expects to be immediately expert. Learning requires time to repel concepts in your mind, so that your subconscious works on ideas and problems. If you choose not to come to class, please be disciplined about keeping the material in your own study time. Back to the top. The course will use the same policies in Prof. Fuller Ph106a policies, available from the Canvas site of your course. Refines and clarifications: Extension requests must be sent to me, the course instructor, not the TA. I did not check the email continuously, and usually not after 5:30 pm on the night of the week (up to possibly after 8 pm), so your extension requests should allow time for the non-immediate response. You can have a silver bullet extension in advance, you just need to notice at the top of the set of problems presented. Let us know if it's happening near the end of the term so don't miss giving credit for the job. The classification division will be 50% problem sets 25% mid-term review 25% final exam Extra credit for attendance at the problem session: To encourage attendance at troubleshooting sessions on Monday, we offer extra credit for attendance at troubleshooting sessions on Monday, we offer extra credit for attendance at the problem session: To encourage attendance at troubleshooting sessions on Monday, we offer extra credit for attendance at troubleshooting sessions on Monday, we offer extra credit for attendance at troubleshooting sessions on Monday, we offer extra credit for attendance at troubleshooting sessions on Monday, we offer extra credit for attendance at the problem session. are decided, so students who do not attend will not be penalized.
